## Sliced Thin by The Editor Alex. H. Washburn Nov. 6 Ballot Proposals

in yesterday's edition The Star's editor discussed the interposition and Pupil Assignment proposals as a group (Amendment No. 47, and, down near the end of the ballot, Interposition Resolution and initiated Act No. 2) — and then returned to the measures in the order that they appear on the ticket, concluding yesterday's discussion with Amendment No. 48 (State Senate "Freeze). Therefore today's discussion begins with Amendment No. 49, grouping with it Amendment No. 50 — the two racing

### Amendments Nos. 49 & 50 (Racing)

Proposed Constitutional Amendments Nos. 49 and 50 have to be discussed together because both deal with the controversial subject of pari-mutuel betting on racing — and they conflict with each other.

Amendment No. 49 would forbid both horse and dog tracks, in the sense that pari-mutuel operation would be outlawed, and it is generally assumed the tracks can't

operate without betting.

Amendment No. 50 is the measure which Hot Springs Chamber of Commerce circulated by petition to guarantee continuance of the Hot Springs horse track only leaving the West Memphis dog track to shift for itself. That is to say, No. 50 would give the Hot Springs horse track a constitutional guarantee but would leave the matter of dog-racing just where it is now — in the hands of the legislature.

have understood — and the Arkansas Democrat repeated the statement in an editorial yesterday — that legal experts hold since there is direct conflict between these two constitutional proposals Hot Springs' amendment, No. 50, even though it won a majority next Tuesday would not be effective unless it obtained a larger majority than the other amendment, No. 49, the anti-horse-anddog measure.

The Star has supported horse-racing at Hot Springs the understanding it would be the only wagering track in Arkansas. We are opposed to any other track in the state, whether for horses or dogs. Had Amendment No. 49 been limited to outlawing dog tracks only I would have supported it — but the way matters shape up No. 49 constitutes a threat to the important and long-time tax revenue which the public schools, welfare agencies, hospitals and the public health service depend

Yesterday's Democrat reported the tax "take" of the Hot Springs track last year was \$865,000. But I have an even later figure. The 1956 tax total from the Hot Springs racing meet this past spring was \$888,150. Here is a breakdown on the major recipients of that \$888,150:

Ducking and the major recipients of that \$666,130;
Public schools\$381,603
Public welfare agencies
Municipal aid
Municipal aid
State hospitals, state sanatoriums
public health service Blind and
Dear School funds 95 571
State General Revenue Fund
State Medical Center 43,942
University of Arkansas An asa
County aid .

colleges and vocational schools, both white and Negro. Nearly a million a year — for the most worth-while public services in our civilized day. How are you going to replace it if you vote out a horse track that has been with us for a generation?

The Star urges you to vote against No. 49 and for

### Amendment No. 51 (Interest Rate)

Proposed Constitutional Amendment No. 51 would permit the legislature to change the maximum lawful rate of interest, now fixed in Arkansas' constitution at 10 per cent. But No. 51 stipulates that unless the legislature does take action the maximum rate remains unchanged at present 10 per cent.

On first thought I was opposed to No. 51. And since our marked sample ballot began appearing on this page, showing our vote for No. 51, there have been a number of requests for our reasoning on the matter.

Your first thought on this amendment is almost certain to be: It will help loan-sharks — a despicable tribe who prey on the ignorant poor. All of us have an obligation — especially a newspaper — to be on guard against this evil.

But the story behind Proposed Amendment No. 51 seems to be an everyday problem that has crept up on Arkansas installment financing since a series of more or less recent court decisions. What's happened is this: The courts have been holding recently that all charges on time-payment contracts must be considered to be interest — under which interpretation some of the largest finance companies find their standard contracts exceed the 10 per cent interest deadline.

There must be something to this complaint of the people who handle time-payments on automobiles and household appliances because I personally know that as far back as the 1930's automobile-finance contracts were going at \$6 per year per \$100 starting-debt — and that quite obviously was 11.3 per cent interest, although the state's deadline then as now was 10. The finance companies considered some of the charge to be interest and the rest of it special handling costs because of the in-herent risk in financing high-depreciation goods. Today, as I understand it, the whole charge is ruled to be interest

— and the big finance companies say they are hurting. The basic point here is whether you are going to continue to have adequate financing for the time-payment business in Arkansas.

The fact that banks handle time-payment accounts quite comfortably within the statutory 10 per cent is beside the point. Theirs is a selective list. The big finance companies operate across the board, taking on virtually all accounts except known dead-beats. It was

the finance companies — not the banks — that built the automobile and household appliance industries. I am supporting Amendment No. 51, therefore, to permit the legislature to hear the finance companies' complaint, to make comparison with procedure and rates in other states, and to take remedial action if it is justified. You had better think this amendment over carefully the alternative could be a drouth of installment credit and a slow-down in business.

Initiated Act No. 1 (Workmen's Compensation) Initiated Act No. 1 proposes to increase Workmen's Compensation disability benefits from a present maxiimum of \$25 a week to \$35, and to increase death ben-

## **AEA Comes Out Against Limit** to School Tax

sas Education Association today came out formally against a proposed constitutional amendment to limit local school taxes.

The Council on Education, the association's policy making body, called for defeat at next Tuesday's election of proposed amendment No. 43.

constitutoinal proposal would set a maximum rate of 30 mills on school property taxes. that would mean a school district could tax itself not more than 30 mills on each dollar of tax-asvaluation .Currently there sessed is not limit.

Proposed amendment No. 43 was designed as a part of a still-incomplete program initiated by the 1955 Legislature for tax reassessment and equalization .

Dr. John Colcol Malvern head of a committee opposed to the proposed amendment told the Council on Educatio nthat the effort to tie the measure up with the reassessment program wholly spurious."

He predicted that if the proposal carries the state would be required to re-enter the property tax field, from which it removed itself approximately 10 years ago. The AEA's annual convention entered full swing today with more than 7,000 teachers expected to register for the two-day session.

## Nov. 6 Ballot

The following marked sample ballot represents. The Star's opinion as to the measures to be voted on in the general election Tuesday, November 6 - with the detailed argument being given in the editorial column from day to day until all proposals have been covered:

Amendment No. 43

FOR
AGAINST
Amendment No. 44 (City retirement bill) FOR  AGAINST
Amendment No. 45 (To abolish poll tax) FOR
Améndment No. 46 (Judgés' salaries)
FOR AGAINST
Amendment No. 47 (States' Rights)
FOR AGAINST
Amendment No. 48 (State Senate "fréeze") FOR
Amendment No. 49 (Prohlbit horse, dog racing) FOR  AGAINST
Amendment No. 50 (For Hot Springs racing) FOR ⊠ AGAINST

FOR SALE

AGAINST ...

efits from g present \$8,000 to \$12,500.

It has been some years since Arkansas adjusted its Workmen's Compensation schedule. Other states have been revising theirs in line with today's wage scales and living costs. Louisiana's old schedule was better than ours — \$30 a week and \$9,000 death benefits — and recently Louisiana has increased these figures to \$35 and \$14,000. On one point, however, the Arkansas program is more liberal than most other states, with or without Initiated Act No. 1. Our medical allowances are unlimited, whereas Louisiana sets a limit ranging from \$1,000 to \$2,500.

Preliminery reports from the insurance companies tell me passage of Initiated Act No. 1 may cost emplayers as much as 15 per cent more for their Workmen's Compensation policies. Even so, this is an integral part of a business' payroll liability and has to be recognized. Wages change from time to time but injury and death benefits lag behind because they can be changed only

Ours is an old schedule and a revision is due now. Vote for Initiated Act No. 1

## Local 4-H Youth Wins State Honors

State winner in the boys agricultural program is Jesse Monroe Duall phases of boys' 4-H Club work neutrality. with special emphasis on agricul-

ture. Jesse has increased his herd of beef cattle from seven head in 1953 to 31, including six registered Polled Herefords. He has 80 acres of improved pasture for his cattle. He stored about 2,700 bales of hay this year.

In addition he has stored about 7,500 bales of hay for other folks with equipment purchased for the with another 4-H club member. Jesse raised and showed the grand champion Polled Here-ford bull in the junior division of the State Livestock Show and sold the animal for \$385.

He has exhibited each year in the district show at Hope and for two years in Little Rock. He attended a wide variety of 4-H camps and conferences in the state and represented Arkansas at Camp Miniwanca, Michigan, last summer as a Danforth Award winner He has held various offices on both a community and county basis.

AN OPEN LETTER TO

Mr. Business Man and to the Voters of Hope and Hempstead County.

Lets be honest and fair with ourselves and then vote what we think would be Best for the City of Hope and Hempstead County on November 6th.

Let me ask you a few questions:

Is liquor sold in Hope now illegally? —— YES Does the City of Hope get any revenue from such sales —— NO

Do the Old People get any help from the Sales? - NO Do the State Schools & Institutions get any Revenue from the

Can our Teenagers Buy Illegal Liquor in Hope? —— YES Can they buy it from a Licensed Liquor Store? —— NO

Who gets the profit from our Dry Illegal Sales? — The Bootleggers and Lawyers who charge a fee every week in our City Courts Defending the Violators who are usually our laboring man who has to pay double price to get a bottle. You see why the Lawyers are against legal liquor.

Why are other good towns in Arkansas getting Industries? Such as Camden, Pine Bluff, Fayetteville, Helena and many others? But Not Hope? Why can't we rent a few of our TWENTY-EIGHT empty Store Buildings? Give employment to about Fifty to Seventy-five People? Let our City, Schools, Old People and State Government get the Revenue instead of the Bootleggers

Why can't we stop the flow of One-Quarter Million Dollars in Business Yearly going to Texarkana? Our People go there to buy their Beverages and while there buy other

Merchandise they need, depriving our merchants of that business. I want you to think of the Business that would come to Hope from our neighboring Towns, that now go elsewhere to trade.

With Twenty Years of operation by our Legal Control Board the Liquor Traffic in Arkansas is handled properly and on a much higher degree of efficiency than ever before.

Think it over and vote the way you think Best.

AN OPEN LETTER TO

Mr. Business Man and to the Voters of Hope and Hempstead County.

Lets be honest and fair with ourselves and then vote what we think would be Best for the City of Hope and Hempstead County on November 6th.

Let me ask you a few questions:

Is liquor sold in Hope now illegally? —— YES Does the City of Hope get any revenue from such sales —— NO

Do the Old People get any help from the Sales? - NO Do the State Schools & Institutions get any Revenue from the

Can our Teenagers Buy Illegal Liquor in Hope? —— YES Can they buy it from a Licensed Liquor Store? —— NO

Who gets the profit from our Dry Illegal Sales? — The Bootleggers and Lawyers who charge a fee every week in our City Courts Defending the Violators who are usually our laboring man who has to pay double price to get a bottle. You see why the Lawyers are against legal liquor.

Why are other good towns in Arkansas getting Industries? Such as Camden, Pine Bluff, Fayetteville, Helena and many others? But Not Hope? Why can't we rent a few of our TWENTY-EIGHT empty Store Buildings? Give employment to about Fifty to Seventy-five People? Let our City, Schools, Old People and State Government get the Revenue instead of the Bootleggers

Why can't we stop the flow of One-Quarter Million Dollars in Business Yearly going to Texarkana? Our People go there to buy their Beverages and while there buy other

Merchandise they need, depriving our merchants of that business. I want you to think of the Business that would come to Hope from our neighboring Towns, that now go elsewhere to trade.

With Twenty Years of operation by our Legal Control Board the Liquor Traffic in Arkansas is handled properly and on a much higher degree of efficiency than ever before.

Think it over and vote the way you think Best.

AN OPEN LETTER TO

Mr. Business Man and to the Voters of Hope and Hempstead County.

Lets be honest and fair with ourselves and then vote what we think would be Best for the City of Hope and Hempstead County on November 6th.

Let me ask you a few questions:

Is liquor sold in Hope now illegally? —— YES Does the City of Hope get any revenue from such sales —— NO

Do the Old People get any help from the Sales? - NO Do the State Schools & Institutions get any Revenue from the

Can our Teenagers Buy Illegal Liquor in Hope? —— YES Can they buy it from a Licensed Liquor Store? —— NO

Who gets the profit from our Dry Illegal Sales? — The Bootleggers and Lawyers who charge a fee every week in our City Courts Defending the Violators who are usually our laboring man who has to pay double price to get a bottle. You see why the Lawyers are against legal liquor.

Why are other good towns in Arkansas getting Industries? Such as Camden, Pine Bluff, Fayetteville, Helena and many others? But Not Hope? Why can't we rent a few of our TWENTY-EIGHT empty Store Buildings? Give employment to about Fifty to Seventy-five People? Let our City, Schools, Old People and State Government get the Revenue instead of the Bootleggers

Why can't we stop the flow of One-Quarter Million Dollars in Business Yearly going to Texarkana? Our People go there to buy their Beverages and while there buy other

Merchandise they need, depriving our merchants of that business. I want you to think of the Business that would come to Hope from our neighboring Towns, that now go elsewhere to trade.

With Twenty Years of operation by our Legal Control Board the Liquor Traffic in Arkansas is handled properly and on a much higher degree of efficiency than ever before.

Think it over and vote the way you think Best.

AN OPEN LETTER TO

Mr. Business Man and to the Voters of Hope and Hempstead County.

Lets be honest and fair with ourselves and then vote what we think would be Best for the City of Hope and Hempstead County on November 6th.

Let me ask you a few questions:

Is liquor sold in Hope now illegally? —— YES Does the City of Hope get any revenue from such sales —— NO

Do the Old People get any help from the Sales? - NO Do the State Schools & Institutions get any Revenue from the

Can our Teenagers Buy Illegal Liquor in Hope? —— YES Can they buy it from a Licensed Liquor Store? —— NO

Who gets the profit from our Dry Illegal Sales? — The Bootleggers and Lawyers who charge a fee every week in our City Courts Defending the Violators who are usually our laboring man who has to pay double price to get a bottle. You see why the Lawyers are against legal liquor.

Why are other good towns in Arkansas getting Industries? Such as Camden, Pine Bluff, Fayetteville, Helena and many others? But Not Hope? Why can't we rent a few of our TWENTY-EIGHT empty Store Buildings? Give employment to about Fifty to Seventy-five People? Let our City, Schools, Old People and State Government get the Revenue instead of the Bootleggers

Why can't we stop the flow of One-Quarter Million Dollars in Business Yearly going to Texarkana? Our People go there to buy their Beverages and while there buy other

Merchandise they need, depriving our merchants of that business. I want you to think of the Business that would come to Hope from our neighboring Towns, that now go elsewhere to trade.

With Twenty Years of operation by our Legal Control Board the Liquor Traffic in Arkansas is handled properly and on a much higher degree of efficiency than ever before.

Think it over and vote the way you think Best.

J. T. Ellis

Orange Free State gold fields,

AN OPEN LETTER TO

Mr. Business Man and to the Voters of Hope and Hempstead County.

Lets be honest and fair with ourselves and then vote what we think would be Best for the City of Hope and Hempstead County on November 6th.

Let me ask you a few questions:

Is liquor sold in Hope now illegally? —— YES Does the City of Hope get any revenue from such sales —— NO

Do the Old People get any help from the Sales? - NO Do the State Schools & Institutions get any Revenue from the

Can our Teenagers Buy Illegal Liquor in Hope? —— YES Can they buy it from a Licensed Liquor Store? —— NO

Who gets the profit from our Dry Illegal Sales? — The Bootleggers and Lawyers who charge a fee every week in our City Courts Defending the Violators who are usually our laboring man who has to pay double price to get a bottle. You see why the Lawyers are against legal liquor.

Why are other good towns in Arkansas getting Industries? Such as Camden, Pine Bluff, Fayetteville, Helena and many others? But Not Hope? Why can't we rent a few of our TWENTY-EIGHT empty Store Buildings? Give employment to about Fifty to Seventy-five People? Let our City, Schools, Old People and State Government get the Revenue instead of the Bootleggers

Why can't we stop the flow of One-Quarter Million Dollars in Business Yearly going to Texarkana? Our People go there to buy their Beverages and while there buy other

Merchandise they need, depriving our merchants of that business. I want you to think of the Business that would come to Hope from our neighboring Towns, that now go elsewhere to trade.

With Twenty Years of operation by our Legal Control Board the Liquor Traffic in Arkansas is handled properly and on a much higher degree of efficiency than ever before.

Think it over and vote the way you think Best.

We, the young people of Blevins, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on November 6, 1956. We feel that we ought to have a voice in this matter, for LiQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

We, the young people of Blevins, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on November 6, 1956. We feel that we ought to have a voice in this matter, for LiQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

We, the young people of Blevins, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on November 6, 1956. We feel that we ought to have a voice in this matter, for LiQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

We, the young people of Blevins, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on November 6, 1956. We feel that we ought to have a voice in this matter, for LiQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

We, the young people of Blevins, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on November 6, 1956. We feel that we ought to have a voice in this matter, for LiQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

Now being delivered house to house in Hope For Service, Call JOHN KAUFFMAN, 7-3029. Subscription Rate Per Month: Daily & Sunday \$1.50; Daily Only, \$1.10; Sunday Only, 65c For FINAL News and Sports, read the SHREYEPORT TIMES, your morning newspaper.

We, the young people of Blevins, Hempstead County, Arkansas, though we are not old enough to vote, are keenly interested in the local option election to be held on November 6, 1956. We feel that we ought to have a voice in this matter, for LiQUOR destroys youth! We appeal to the voters of Hempstead County to keep beer, whiskey, wine, etc. out of Hempstead County for our sake.

## TO THE VOTERS OF NEVADA COUNTY

candidate. Why the second primary if elections are to be handled in such a manner? This is nothing new. Someone is elected every election by writein votes. The following officers were elected by write-in Democratic votes: the present county clerk has been elected numerous times in Boughton township for the township office. The late Edward Bryson was elected Rep. of Nevada County, George Fuller was elected Mayor of Waldo. Hope elected a municipal judge and Hempstead County a Coroner, Stone County elected a Rep. and South Carolina elected a U.S. Senator. I believe the Nevada County voters are going out November 6 and elect a Sheriff, They will write in JOHN A. JARVIS on the blank line under my opponent's name and place the X in the square at the end of the blank line, as I have had printed on the back of my last cards.

Let us be in the open, fair and square shooters; we should not want something without a single vote that the public should choose. Shall we have drawings, sales or elections in the future for public office? If a drawing, do you want your name in? If a sale, let us have a public sale, do you want your bid in? If an election, you that have poll taxes go out and vote for a man that does not stand for deals behind closed doors when, we as individuals are concerned. Why is JOHN A JARVIS a write-in candidate for Sheriff? Because John A. Jarvis and others do not agree with the manner the nominee was declared. His name was not on the primary ballot. He has NOT had a vote. The nominee should explain in signed affidavit how he became the nominee. His friends should sign with him.

If you agree that every man should run his race to the end once he has announced and the ticket closed, then vote for JOHN A. JARVIS, an ex-service man with Military Police and civilian experience in the handling of prisoners. I do not ask for the office in order to punish prisoners. I'll leave that to the court. I will handle prisoners as men, as we all make mistakes and some good men foul up now and then. Sometimes innocent

men get involved. To the voters that do not get out and vote, I urge you now to vote. To the ones who don't care who, I ask both of you to come on in and stop a practice that might keep you, your son or grandson from a chance at a public office that man and law provided for us. To you that have made it possible for me to be your candidate for sheriff by petitions and otherwise. I wish to thank each and every one of you from the bottom of my heart and may God bless you.

We are going to win the Sheriff's office for the people and by the people here in America and Nevada County. But, do not just stand there; help now and don't leave a thing undone. The credit is yours but I'll help shout the victory. All of you, regardless of how you vote, come to see me. I am sorry'l cannot get around to seeing all of you to solicit your vote but I ask the support of all and the little man is big to me. I am not connected with any political aroun. with any political group.

Nov. 6 Ballot Proposals —

## Three Favorable Votes: For Legal Liquor Sale; Parking Meters; & 3-Mill Road Tax

(5th Editorial of a Series)

In yesterday's edition The Star's editor discussed the November 6 ballot questions through initiated Act No. 1 (Workmen's Compensation), and, since initiated Act No. 2 (Pupil Assignment) ment) was covered in a still earlier edition, today's editoria therefore covers the final three questions on the ballot. The of iclai ballot presents these not as bills or ordinances but as simpl and direct questions. You vote for or against parking meters for or against legal sale of liquor and beer, for or against legal sale of liquor and beer, for or against

Hope Parking Meters The proposition appears on the official ballot as: For, Against, Coin Collecting Meters.

The Star thinks you should vote for the meters. Citizens circulated a petition so the people might have a chance to vote the parking meters out if desired. Voters should remember, however, that back in non-meter days t was impossible to find a parking place in downtown Hope—all the space was taken by downtown workers; the shoppers didn't have a chance.

The Star demanded meters as a common-sense regulation to bail us out of an impossible traffic situation, and the city finally installed them.

There is public irritation with or without meters Without meters, you can't find a place to park. With meters, you sometimes are fined for parking longer than your money permits. I've paid as many fines as anyone.

Nevertheless, don't let your private "beef" mislead you. Vote for the coin-collecting meters.

Sale of Intoxicating Liquor The Hempstead county local option question appears n the official ballot as: For, or Against, the Manufacture r Sale of Intoxicating Liquor.

With the repeal of national prohibition under the irst administration of President Franklin D. Roosevelt, Arkansas and all its counties automatically reverted to a 'wet" status. In 1936 Hampstead county "drys" circulated a petition and called a local option election. This newspaper fought them; the county stayed "wet" and re-

In 1946 the "drys" made a new attempt, and that vear were successful in throwing out the package stores and legal sale of liquor and beer. We fought the "drys" just as hard in 1946 as we did in 1936, but were overwhelmed. As a matter of fact, the "wet" vote in 1946 equalled or exceeded the total vote cast for both sides in

Now the "wets" have circulated a petition with which this newspaper has no connection and once more the liquor question appears on the ballot. It is proposed to legalize package-store sale of liquor and the general sale of beer.

local option campaign The Star stipulated it would accept advertising of beer but not of liquor, and lived up to its word. We make no such stipulation today. The 1946 "dry" victory showed such a stipulation was unimportant. The newspaper's feeling against hard-liquor advertising hasn't necessarily changed, but we're simply not going to offer something that isn't appreciated.

1946 I realize there is little new to be said in the controversy between liquor regulation and liquor prohibitionexcept to give you the latest tax figures,

Prohibition, of course is an expense-requiring diversion of tax money away from useful purposes to "en force" an unenforceable "law."

But the regulated legal sale of liquor and beer, which the public will accept as sound and just, produces an important part of the revenue supporting public schools and welfare ogencies.

Revenue Fund, which disperses about 50 per cent to the public schools and 14 per cent to welfare—a combined total of 64 per cent.

\$6,782.202—approximately 10 per cent of the entire State General Revenue Fund, You may wipe out all this on "moral" grounds—but

Perhaps you feel we would be better off with a higher tax on bread and milk and clothing.

ought to pay tax on these luxuries so that other folks who can afford only the necessities of life may have them as frugally as possible.

## Mine Disaster in Canada Takes Lives of 114 SPRNGHILL Nova Scotia (A) -

The known death toll of a Springhill coal mine disaster nounted to 13 today and hope waned for 113 men still trapped in funnels more than a half mile below the surface. Two of the known dead were escue workers killed by coal gas after entering the mine to search for the missing men. Gas and fallen rock hampered he rescue operations. In addition, section of the shaft leading to the trapped men was to be scaled off for "two or three hours" to control a fire burning there, said Harold Gordon a mining corpor ation executive. The town still held a glimmer

hop that the trapped men might have survived last night's explosion and the gas. But veteral niners were not optimistic. Rescue workers found odies during the night at 3,400-foot level. They said they saw no sign of life in the deep orkings where the remaining 11 were known to be trapped. Six other miners were fatally

and planes helped bring in doctors and supplies and cars used their headlights to illuminate me runway at an äirfield

As a matter of principle this newspaper always votes 'wet''—and I shall do so again next Tuesday. In the 1936

On the liquor question The Star disregards everything the preachers say or write. To hear them talk you would think they were trying to help humanity—when, as a matter of fact, their proposal to continue statutory prohibition is nothing but a strong-arm "law" to put men in iail. When preachers talk about law—any law—I don't listen. Nor did our Anglo-Saxon ancestors. They got so tired of the church & state monopoly in the Old Country that they pulled out and came over here.

In looking over our campaign editorials of 1936 and

All liquor and beer taxes go into the State General

Last year the state's total alcoholic tax "take" was

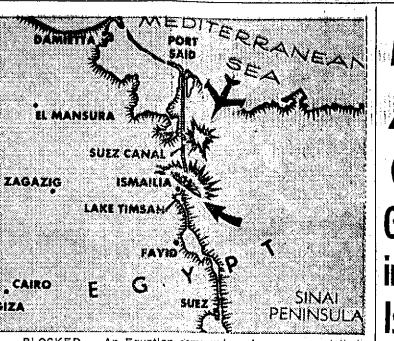

how moral a man or woman are you if you wipe it out and fail to give the schools and the welfare agencies a replacement from some other tax?

I don't. I think people who can afford to buy whisky and beer

This is the sane and civilized view. I'll defend it against all conters.

County 3-Mill Road Tex This question appears on the official ballot as: For,

No debate on this one. You've been voting for and paying this tax all your life. Vote now if you expect to have your county roads maintained as well as in the past,
